SINGAPORE, April 2016 – Indulging their pet is often the most gratifying feeling for a pet owner. At Regent Singapore, furry four-legged friends are welcome to a pampering five-star staycation in the Hotel’s comfortable pet-friendly accommodation.

From a personalised PuppyPack complete with a chew toy, dog treats and pet necessities, to a handy off-site dog-walking map, the Hotel has meticulously prepared a range of amenities designed to provide the ultimate retreat for pet owners and their pets.

“Pets are seen as part of the family. A lot of time, energy and love is put into taking care of them and it is sometimes not easy to be away from them. With our Pet Staycation Package, we are providing pet owners with the option to get some rest and recreation, while still having their pets close to them. Just like how we welcome our guests, we want to extend the same hospitality and comfort to pets, which is why our team has put this together,” says Regent Singapore General Manager Peter Draminsky.

In collaboration with local luxury pet boutique Woofer&Purrlensky, the Hotel offers a complimentary microfibre towel for pets to enjoy the softest smooth touch afterbath feel. Pet owners wanting to further pamper their pooch or take home the experience can turn to the in-room pet “minibar” basket, which features a curated selection of pet products ranging from handmade natural bar soaps ($28), hand knit wool headrests ($22), coat tamers ($38) and other grooming accessories.

Pet dining in the Hotel is also another luxurious treat as canines can lap up bites like The Rin Tin Tin, a succulent sirloin burger with chopped vegetables, while feline friends can lick up the Cat’s Meow, a serving of baked tuna or salmon. But knowing that some pets have their own diet plan, Executive Chef Simone Cerea and his culinary team are also available for customised meals upon request. “Preparing a meal for a pet can be very sensitive, so it is essential to keep pet owners involved in the process. These discussions are important for my team and every detail is taken into consideration to ensure that the meals are prepared according to the guests’ specific requirements,” he says.
With luxurious accommodations, pampering amenities and renowned Four Seasons service, Regent Singapore promises a barking good pet staycation retreat for animal lovers and their friends.
